Product Description

Traeger Pro 780 WiFi Pellet Grill - Black

Spend less time at the grill and more time with your favorite people without compromising perfect results. Traeger Pro Series grills are made to deliver unforgettable meals with unrivaled wood-fired flavor and features that make cooking simple. WiFIRE® technology lets you monitor and control your grill from anywhere using the Traeger App, and the powerful D2 Controller maintains precise temperatures for perfect results every time. Just set your desired temp and put on your food for Set-It & Forget-It® ease.

- Versatile temperature range from 165°F to 500°F to smoke, bake, roast, and grill BBQ with precision
 - 120V AC voltage and 95 watts for quick heat-up and consistent temp control
 - Bring your electric-powered wood-pellet grill to life by plugging in the included 6ft. D2 NEMA power cord to the nearest outlet
 - This grill is equipped with WiFIRE® connectivity to keep track of your cooks from anywhere with the Traeger App
 - Convenient hopper clean-out lets you switch pellet flavors quickly
 - Two tiers of porcelain coated steel grates for 780 sq. in. of cooking space
 - 18 lbs. pellet hopper capacity
 - One included Traeger meat probe makes checking internal meat temps simple
-
