Product Description

The Inception from SimpliFire® is the first traditional electric fireplace that brings true to life flame experience to your home. Simple to install almost anywhere, it creates a safe and relaxing retreat with flickering flames, handpainted logs and glowing LED embers.

Easily adjust the brightness, warmth, lighting and timer from the comfort of your chair. Installation is a breeze with no gas line or venting needed. Build the Inception into your wall with its thin profile that hardly takes up floor space. Or choose the optional Wescott Mantel Kit for a built-in look with no need for construction.

- 36" wide with Digital Spark Technology creating an True to life flame experience
- Stylish front designs include on-fireplace controls, with no glass or glare
- Easily operate using the Intellifire® app, remote control, or voice commands with smart speakers
- Optional Wescott Mantel Kit allows you to add the Inception to your room with no construction
- Adjustable flame, ember bed, and accent light brightness creates an inviting vibe
- Thermostat keeps the heat level where you want it
- Timer for carefree operation
- Year-round use, with or without heat
- Connects to 120V (5,000 BTUs) home wiring; 240V-capable for twice the heat
