### Product Description

The Expedition II steel wood insert provides a great value for those looking for the easiest wood insert to operate. Powered by the Quadra-Fire four-point burn system providing an impressive fire that can be easily seen through the large 275 sq.in. cast iron glass door. Along with the Automatic Combustion Control (ACC), which gives you more air when you want it for easier start up or that extra boost of heat when needed. This is done automatically once you set the ACC so no need to stick around and tend the fire, just enjoy the heat.

Big warmth comes to smaller spaces with the easiest wood insert to use. Fitting most fireplace openings, the Expedition I lets you load your wood, light the fire and enjoy the comfortable warmth. Even with its more compact size, you can enjoy up to six hours of heating on a full load of wood. There's no need for you to stick around and tend to the fire; just savor the warm atmosphere with the easiest wood insert to use. The flush transitional look allows this insert to fit any room setting.

- Standard 200-CFM fan delivers heat farther and faster into your room
- Clean-burning non-catalytic system makes it easier to run and maintain wood insert
- 1.5-cu.ft. firebox holds 18" logs for long-lasting heat
- Heats up to 1,400 sq. Ft. with 37,000 BTUs, based on climate and home efficiency
