Categories: [Hearth & Home Technologies](#)

Product Description

With fuel-saving efficiency and the effortless operation of Smart Burn Technology, the Pioneer III wood-burning fireplace supplies serious heat in a beautiful fire. Add up to two heat zone ducts to send warmth into other rooms.

- Heats up to 3000 sq ft with 90,900 BTU's
- 4.1 cu ft firebox holding a 24" log
- Up to 18 hours of burn time on a full load of wood
- 400 CFM fan system delivering heat further and faster into your room
- Certified to the EPA 2020 emissions standard

The efficiency of the EPA-approved Pioneer II supplies long burn times with nonstop rolling flames. Never has it been easier to set the mood for relaxing or just keeping your home or cabin toasty warm with ample heat.

- Heat 1,000-2,600 sq ft with 68,200 BTUs, based on climate and home efficiency
- Low emission levels of 1.8 grams per hour, certified by the EPA
- 2.7 cu ft firebox capacity / recommended 22" log length
- Up to 10 hours of burn time from each load of fuel

Fuel Type:

Wood
