Product Description

Wright ZXL 52" Zero Turn Mower

DURABLE. COMFORTABLE. PRODUCTIVE.

The all-new ZXL zero-turn rider fills the gap between our current ZTO and ZXT models and is a welcomed addition to our ZX series of commercial riding mowers. Built on the same frame as the ZXT, the ZXL shares the extreme durability and construction of the ZXT but in a lighter, more compact, and more affordable package. The ZXL is equipped with powerful EFI engine offerings, large 24" rear tires, a premium bolstered suspension seat, and Aero-core deck, along with 15.5 gallons of fuel capacity. The ZXL is available in 52 and 61-inch deck sizes and is compatible with the WrightVac power bagging system, making it a versatile and valued asset in your fleet.

Features

- **34.5 HP Kawasaki FX820V-EVO EFI Engine** - Delivers powerful commercial-grade performance with electronic fuel injection for demanding mowing applications.
- **52" Aero-Core Deck** - Provides wide cutting coverage and professional-quality mowing performance.
- **Commercial Zero-Turn Design** - Built on the same frame as the ZXT, offering proven durability in a lighter and more compact package.
- **Premium Bolstered Suspension Seat** - Helps maximize operator comfort during extended workdays.
- **Large 24" Rear Tires** - Provides improved traction and stability across a variety of commercial mowing conditions.
- **15.5-Gallon Fuel Capacity** - Supports longer mowing sessions with fewer interruptions for refueling.
- **WrightVac Power Bagging Compatibility** - Compatible with the WrightVac power bagging system for added versatility on commercial properties.

Best Use

- **Commercial Landscaping** - Ideal for professional lawn care companies maintaining commercial properties, parks, and large residential communities.
- **High-Productivity Mowing** - The 52-inch Aero-Core deck helps crews cover more ground efficiently

while maintaining a professional finish.

- **Healthier Lawn Maintenance** – Learn about the [bad effects of mowing your lawn weekly](#) to develop a mowing schedule that promotes stronger turf.
- **Seasonal Equipment Solutions** – If additional equipment is needed for larger projects, explore [power equipment rental in Stephens City, VA](#) for flexible rental options.

52-Inch Commercial Zero Turn Mower with EFI Engine

The Wright ZXL 52" Zero Turn Mower combines a powerful 34.5 HP Kawasaki FX820V-EVO EFI engine, a durable 52-inch Aero-Core deck, and a premium suspension seat to deliver exceptional comfort, productivity, and commercial-grade performance. This [commercial zero turn mower](#) is designed for landscaping professionals who need durability, efficient operation, and reliable results throughout the workday.
